Communications

where friends & money meet

Swiss Mentality meets the financial circle in Frankfurt

We are a team of 20 experts in an owner-managed communications agency. Our main focus is on PR, media relations, digital marketing & content creation for financial services companies, Fintechs, Real Estate and B2B companies.

With locations in Frankfurt, St. Gallen and Lausanne we cover the entire DACH region – and Europe with our Fincom network. We believe in team spirit, individuality, working at eye level, top performance and an extra portion of curiosity. With us, decisions are made faster than it takes you to empty your coffee cup.

We would like to continue to grow and are therefore looking for talented people who will fit perfectly into our team.

This is

YOU

You have a university degree (business administration, PR, journalism, humanities or linguistics) and several years of experience.

It is natural for you to lend a hand. Wherever help is needed, your support is there.

You display a pleasant mix of professionalism, collegiality and openness.

Your English is confident, both written and spoken. You can easily join in conversations with customers.

You think „out-of-the-box“ and are not afraid to add new ideas to the mix.

Our clients

TEAM INTERVIEW

What makes your work interesting?

Julia

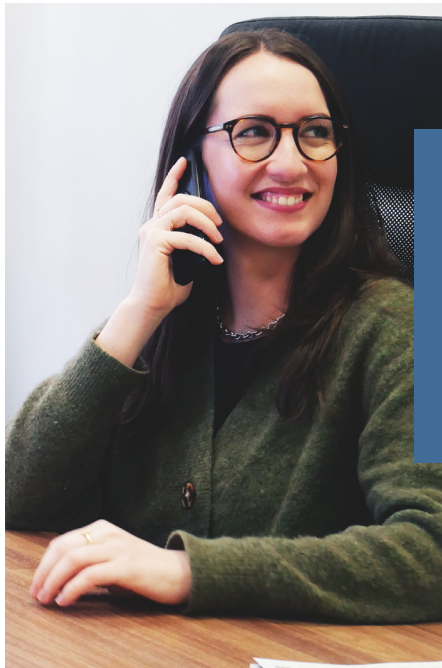

The diversity of topics and clients we serve is definitely a highlight. Every day is different, even if you may think otherwise when considering an agency's day-to-day work. Putting the customer, his opinion and his top story into the spotlight and then to view it in the Tier 1 media is absolutely worth every effort.

What is a favorite moment of your work-day?

Anna

What a question - my favorite moment is the lunch break. Not because we don't have to work, but because together, we're trying out the next culinary highlight in Frankfurt. The conversations while eating good pasta top everything.

What is important in your work?

Matthias

My top three: Customers and their stories, open ears of my colleagues and the exchange with journalists. Combining all of this is the challenge I face and the fun I have at work. It is like creating a new dish every day.

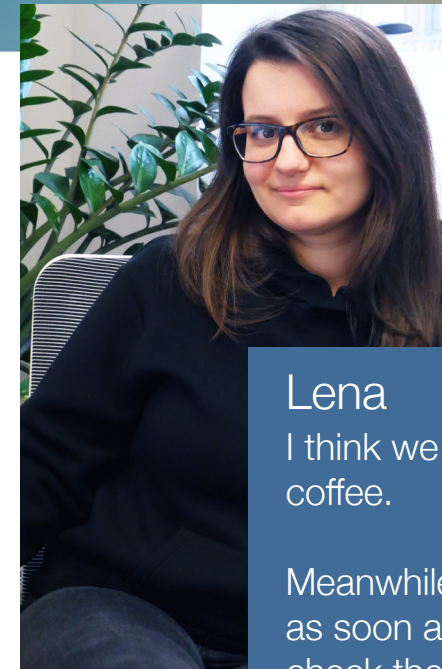

What is everyday life like in the TE office?
Our team can tell you best.

What is the first thing you do when you come into the office?

Lena

I think we agree within the team – getting coffee.

Meanwhile, the PC starts up and as soon as the coffee is ready, it's time to check the mails, monitor the customers and then join the daily team call. Here, we discuss our tasks and ask questions.

Which advice would you give to new team members?

Steffi

New colleagues, a new environment, new workplace – that's usually very exciting. We are an experienced team and we have all started at some point. My advice therefore is: Be bold and just try it out! And if you are ever uncertain: Ask, ask, ask. We'll be happy to help :)

What was one of the highlights of last year?

Birte

In June, we hosted a Rooftop Evening in Zurich with customers, friends and partners. It was all quite relaxed. However, the location on the rooftop was unfortunately cancelled due to bad weather, but we had a great evening one floor below with a flying dinner and stimulating conversations. The Rooftop Party will happen again in 2023 – this time with better weather!

BENEFITS

Ticket

We cover the full cost of your ticket between home and the agency.

Team Lunch

Every month we all get together for a team lunch. We can also talk about private things and let work be work.

Unprejudiced workplace

With us you are welcome exactly as you are. At TE, we live and love diversity.

Digital Workspace

Our workplace is state of the art. Of course, we provide you with a laptop that allows you to work from anywhere - whether you're on a train, a plane or in the Office.

Home-office

Because we know that between work, everyday life (and the handyman) sometimes gets in the way, individual homeoffice solutions are no problem for us.

Working hours

We live and breathe trust-based working hours. Our core working hours are 9 am - 6 pm. But if you have to go to the doctor or want to go to yoga earlier, that's no problem either.

Above average remuneration

... with many benefits such as free drinks, fruit baskets, Christmas and summer parties and much more.
